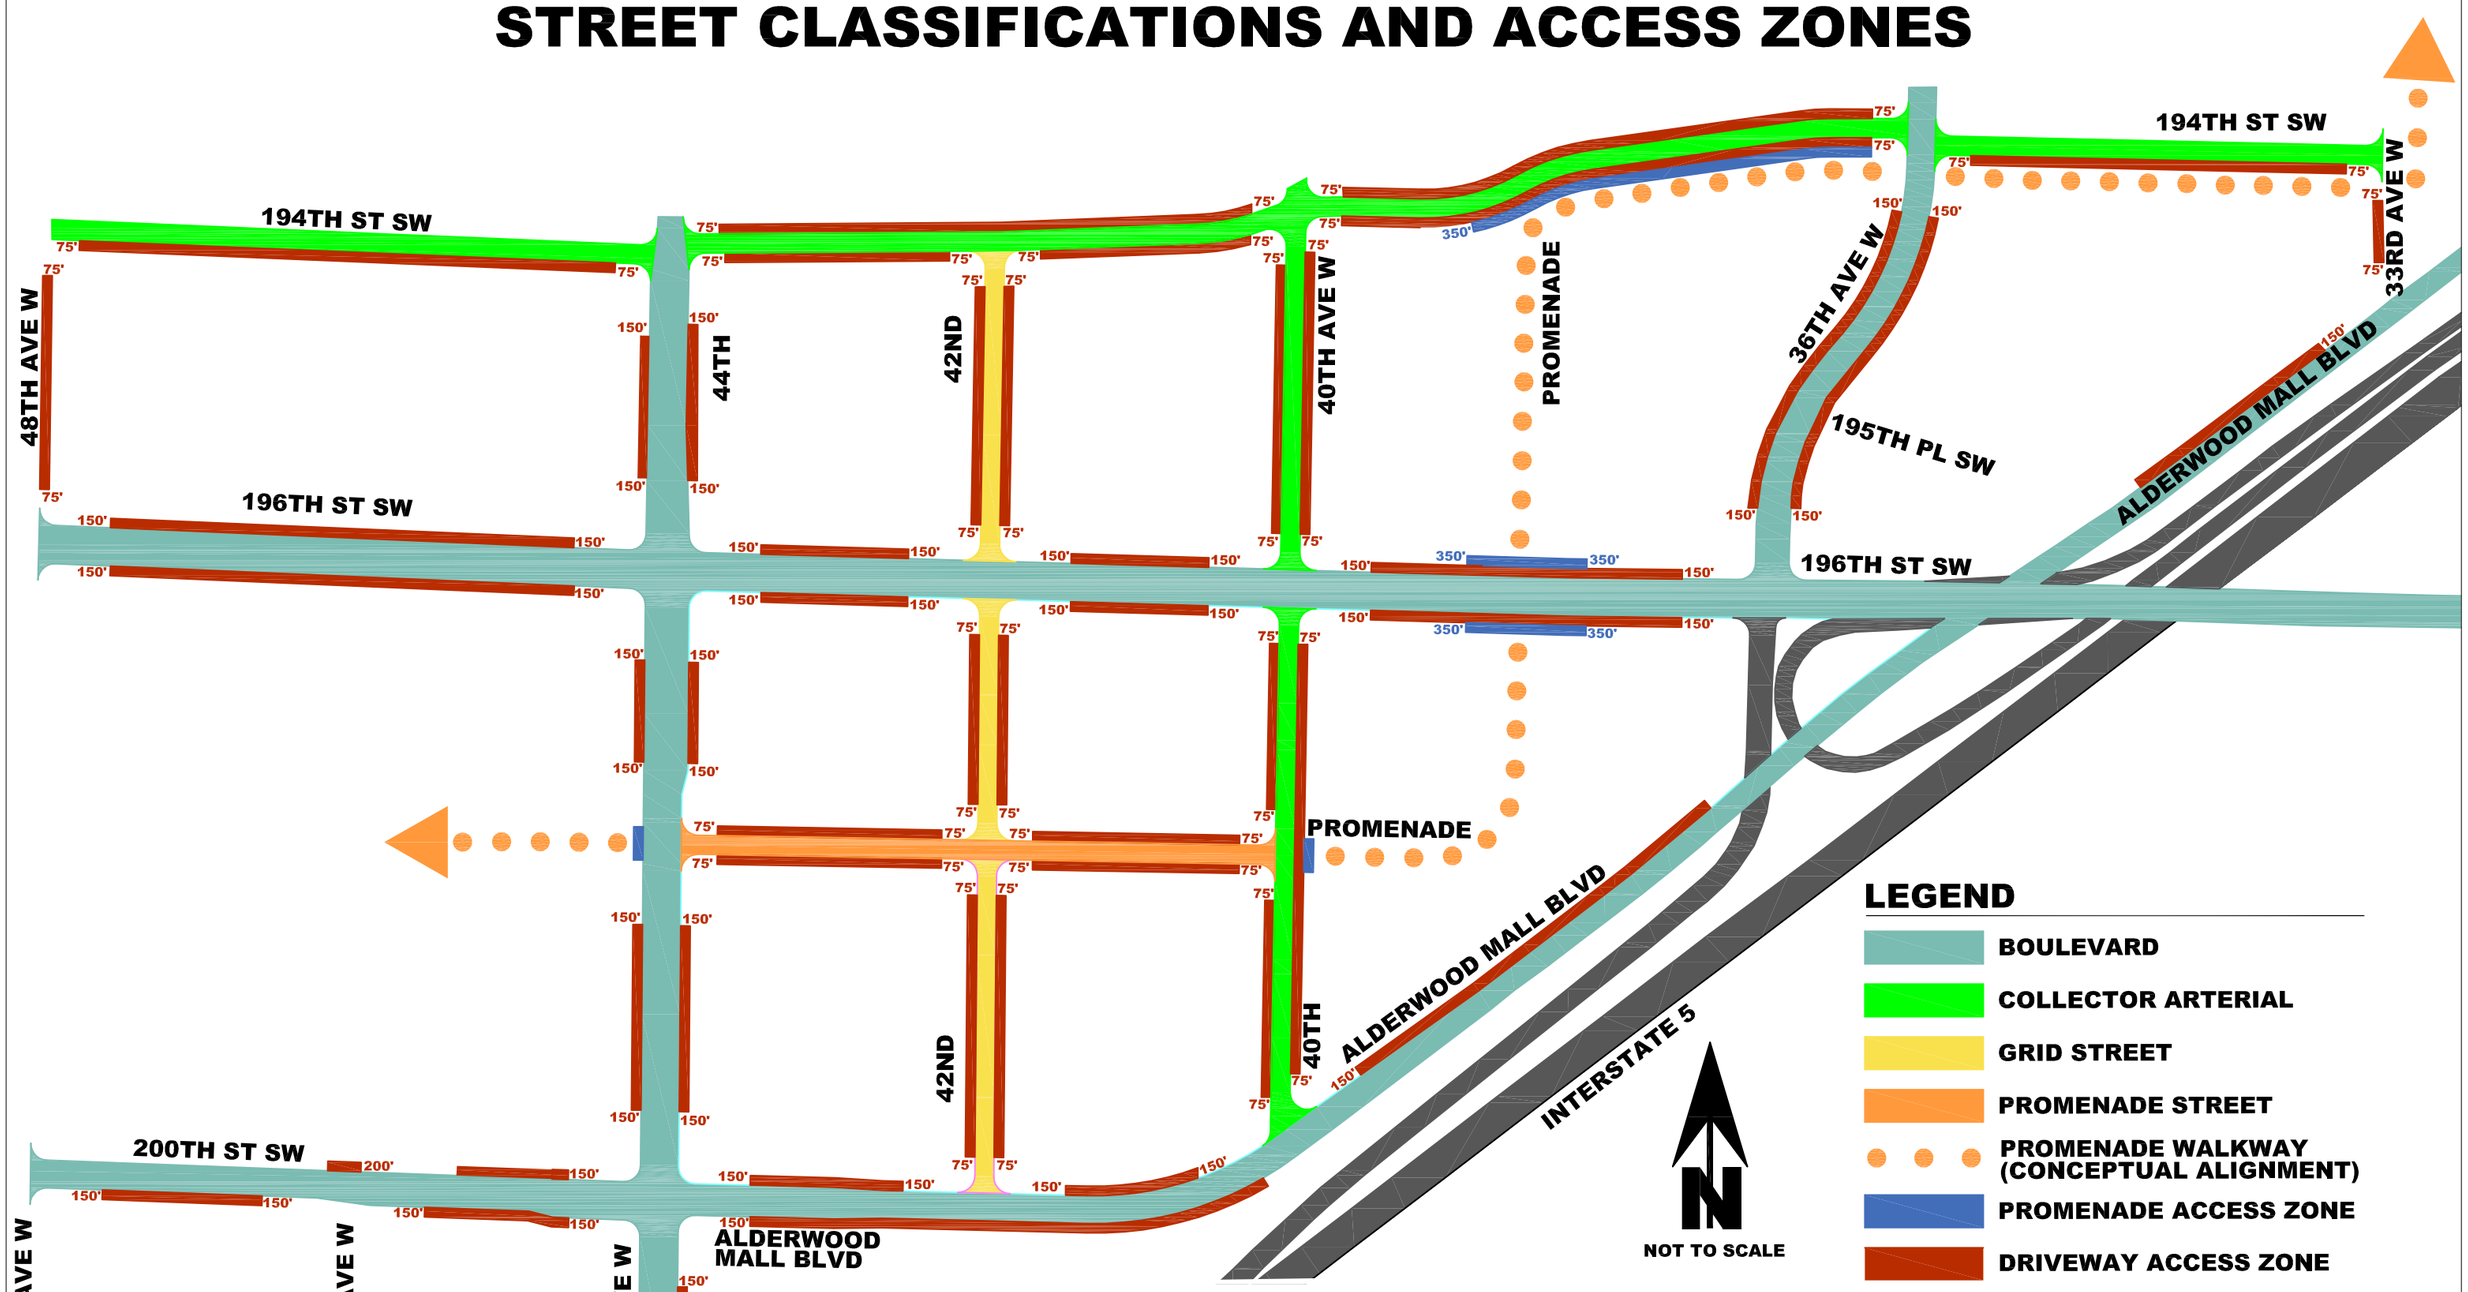
CITY CENTER
STREET CLASSIFICATIONS AND ACCESS ZONES



NOTE 1: The location of the promenade walkway depicted on this map is conceptual only and is intended to show the overall concept for pedestrian connection, and not a specific alignment. The exact location of the promenade walkway may be different from that depicted on thls map and will be determined in consultatlons between the private property owner and the City as individual development proposals are submitted for review by the City.

NOTE 2: Driveways to follow access management policy and City Center Design Guidelines.

NOTE 3: Access zone dimensions are measured from the face-of-curb from the far side of the curb returns per the planned (not existing) lane configurations.
