

An additional recovery program called **Project Lifesaver** is available through the Snohomish County Sheriff's Office. This is an electronic monitoring program that provides for electronic tracking and location of lost dementia patients.

There are maintenance fees associated with the program.

Ask the Lynnwood Police Department for a copy of this brochure, or find the information online at

www.co.snohomish.wa.us/sheriff

Contact the information line by phone at 425.388.3825.

What you need to know
if you
or someone you care for
is

Memory Impaired

The Memory Impaired Assistance Program (MIAP)

The Lynnwood Police Department offers a program to assist in the recovery of memory-impaired persons who are lost or have wandered away from their residences or caregivers. This program supplies qualified citizens with identification wristbands.

The program is available to dementia patients residing within the City of Lynnwood.

This service is FREE!

For information
and a form online, see
www.ci.lynnwood.wa.us

HOW DO I REGISTER SOMEONE?

- Call the Police Department at 425.744.6900. Ask to be connected to the **Crime Prevention Unit** to register for the MIAP program.
- A trained volunteer will arrange a time to meet with you and the impaired person at your location. A digital photo will be taken (face and full-length). You will also be provided with a registration form to complete. If necessary, you may bring the citizen to the Lynnwood Police Department for these services.
- The registration form, with current information, will be kept at the police department, along with the photos.

- We will place a wristband on the person with dementia. On the band will be:

**(A sequential ID number)
Memory-Impaired Assistance Program
Lynnwood Police Department
IF LOCATED, CALL 9-1-1**

WHAT HAPPENS IF A PERSON WANDERS AWAY?

In the event a missing person wearing the MIAP band is found, the reporting party will call 9-1-1, identify the missing person as a participant in the Memory Impaired Assistance Program at Lynnwood Police, and give the dispatcher the band ID number.

The 9-1-1 dispatcher will contact an officer, who will in turn retrieve the found person, and get the registration information from the Department. Emergency contacts/caregivers will then be called, appropriate medical instructions followed, if necessary, and arrangements will be made for reconnecting the two parties.

Updated information is critical to the success of this program; therefore, any changes in caregiver, contact information, medical changes, etc. should be submitted in writing to the Lynnwood Police Department.
