

Listed below is the information that needs to be provided in order to submit a complete application for a **new commercial** building permit. Staff will not process incomplete applications. Online plan review is now available. Please see the website for details on the application process.

SUBMITTAL REQUIREMENTS

- Completed and signed application form, including proof of a valid State Contractor's License and a City of Lynnwood Business License.
- Four (4) complete sets of plans, including:
 - Architectural
 - Structural
 - Mechanical
 - Plumbing
 - Electrical
 - Site
 - Civil (Drainage and Utilities)
 - Landscaping

All plan sheets prepared by a State-licensed architect or engineer shall be wet-stamped and signed.

- Three (3) additional sets of civil plans with two (2) sets of storm drainage calculations, site plan, and landscaping plan.
- Two (2) sets of a soil investigation report as specified in Chapter 18 of the currently adopted IBC.
- Two (2) sets of structural calculations, signed, sealed and dated by a State-licensed structural engineer.

ADDITIONAL REQUIREMENTS

- All structural and non-structural design shall conform to the codes currently adopted by the City.
- Special inspection and structural observation as defined under the current IBC, Chapter 17, is required. All testing is to be done by a laboratory or inspector approved by the City.
- Suspended ceilings are to be designed per ASTM C635-6.
- Storage shelving over 5'9" in height requires a separate permit; shelving over 8' also requires signed, stamped structural calculations. Construction details, anchorage details, and floor plans shall be provided with the permit application.
- Roof-mounted equipment requires signed, stamped structural calculations.
- Commercial kitchen plans require approval from the Snohomish Health District. Hood and duct systems for kitchens shall comply with NFPA 96 and require a separate permit submittal.
- A Grease Interceptor permit from the Public Works Department is required where grease, fats, chemicals, or oils are processed or used.
- Demolition of existing structures requires a separate demolition permit.
- SEPA checklist and plans, if applicable.
- A business license must be applied for, approved, and obtained prior to opening for business.

NOTE

Full plan review fees are due upon submittal and are calculated based on valuation of the project.

+++ **FEES:** For specific fee information, see LMC 3.104 or check the fee schedule available online or at our office.

Fees for *single-family or duplex residential buildings* are calculated by the number of fixtures (see above).

Fees for *all other buildings, including but not limited to commercial, institutional, or residential complexes of 3 units or more*, are all calculated by contract amount.

NOTICE

This permit becomes null and void if the authorized work has not been inspected by this department within 180 calendar days of issuance or for a period of 180 calendar days from the last inspection. The total life of this permit is limited to a maximum of 540 calendar days, provided it has not expired under the restrictions above. One extension request for 180 calendar days may be granted if a written request is submitted to the building official showing just cause before the expiration date.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
