

Listed below is the information that needs to be provided in order to submit a complete application for a *ground sign* building permit. Staff will not process incomplete applications.

SUBMITTAL REQUIREMENTS

- Completed and signed application form, including proof of a valid State Contractor's License and a City of Lynnwood Business License.
- Two (2) complete, to-scale sets of detail plans, including:
 - Name and address of contractor/installer and property address
 - Size and height of sign
 - Materials and colors
 - Structural calculations approved with stamped plans
 - Footing details, including reinforcements and connection details for post to footing and for sign to post
- Two (2) complete, to-scale sets of site plans, including:
 - Name and address of contractor/installer and property address
 - Nearest structure with an address
 - North arrow
 - Setback from property line to the leading edge of the sign
 - Location of any existing ground, monument or pole signs
 - Location of adjacent streets and driveways
 - Existing features such as landscaping, parking stalls, etc.
 - If the base of the sign sits higher than the adjacent right-of-way, provide site topography or cross-section detail
- Electrical permit application, if applicable.

ADDITIONAL REQUIREMENTS

- For additional requirements for commercial ground signs, see Lynnwood Municipal Code (LMC) 21.16.310(A)(3).
- For additional requirements for public ground signs, see LMC 21.16.300(A).
- For additional requirements for residential or institutional ground signs, see LMC 21.16.290(F).
- Maximum sign size: 25 square feet
Maximum height: 3.5 feet (42 inches)
Minimum setback from Right-of-Way: 5 feet

NOTE

Full plan review fees are due upon submittal and are calculated based on valuation of the project.

+++ **FEES:** For specific fee information, see LMC 3.104 or check the fee schedule available online or at our office.

Fees for *single-family or duplex residential buildings* are calculated by the number of fixtures (see above).

Fees for *all other buildings, including but not limited to commercial, institutional, or residential complexes of 3 units or more*, are all calculated by contract amount.

NOTICE

This permit becomes null and void if the authorized work has not been inspected by this department within 180 calendar days of issuance or for a period of 180 calendar days from the last inspection. The total life of this permit is limited to a maximum of 540 calendar days, provided it has not expired under the restrictions above. One extension request for 180 calendar days may be granted if a written request is submitted to the building official showing just cause before the expiration date.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
