10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30

Use calendar as a guide. Conservation program participation is optional.

- Water your lawn in the morning to reduce water loss from evaporation.
- Repair leaky hose bibbs and hoses. Even small leaks waste water.
- Water your lawn every third day, as needed. Lawns only need 1-inch of water weekly, including rainfall.
- Plant native plants. They require less water and care. Be sure to read plant labels for healthy growth.
- Conservation starts with you. Use water wisely.

Calendar from your water provider.
