A Land Use Application for a State Environmental Policy Act (SEPA) review is deemed complete when it is accompanied by the required items identified below. Please be advised that additional information may be required during the review process in order to respond to or resolve particular issues. No application shall be considered complete if any of the required information is missing. Additional copies of certain items will be required later in the process.

Purpose of Checklist

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment.

The purpose of this checklist is to provide information to help you and the agencies identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. **Answer the questions fully and briefly, with the most precise information known, or give the best description you can.**

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determine if there may be significant adverse impact.

Use of the Checklist for Non-Project Proposals

SEPA defines non-project actions as governmental actions involving decisions on policies, plans, or programs that contain standards controlling use or modifications of the environment, or that will govern a series of connected actions. This includes, but is not limited to, the adoption or amendment of comprehensive plans, transportation plans, ordinances, rules and regulations (WAC 197-11-704). Complete this checklist and Supplemental Sheet for Non-Project Actions for non-project proposals, even though questions may be answered "does not apply." For non-project actions, the references in the checklist to the words *project*, *applicant*, and *property* or *site* should be read as *proposal*, *proposer*, and *affected geographic area*, respectively.

Instructions for Applicants

Please read and follow all instructions on your application carefully. If you have any questions about the process or your project, it is strongly recommended that you speak with staff prior to submitting your application to help ensure that processing can advance in a timely manner. Every application must include this cover sheet, the application/checklist and all required items, and a notarized affidavit of ownership (if applicable).
