#ImagineLynnwood

LYNNWOOD CITY CENTER + ALDERWOOD

PLANNING FOR OUR FUTURE

Lynnwood is planning for a more cohesive City Center and Alderwood district in response to major changes in the region and in the city. This planning effort will help connect the City Center and Alderwood areas, prepare for the incoming Everett Link Light Rail extension, and create new opportunities for employment and housing.

We are asking you to help us think about what this area should look like and how it should function. Our goals are to:

- » Create vibrant, recognizable areas with lots of amenities that contribute to a high quality of life;
- » Meet regional growth targets for housing and employment; and
- » Establish and achieve community goals and priorities.

The City Center + Alderwood Plan will consider transit-oriented development, housing, parks and trails, transportation networks, economic development and employment opportunities, and other recommendations that will create thriving communities.

As part of our work, we are committed to a robust outreach process that emphasizes inclusivity and diversity. Look for opportunities to engage with us throughout the project!
