Love the collaborative approach of asking the community..... we can benefit from collective minds solving the issues of today together. It embraces the philosophy of the last 8 years under Mayor Smith's leadership: moving Lynnwood forward thoughtfully and mindfully. I STRONGLY oppose the candidates who who keep trying to tout "what we did back then." That thinking takes us nowhere fast.

Fix the streets. You've collected money for years to repair them yet they never get done

Don't waste any more dollars on useless dividers to put in grass and trees that just rip up the roadway. We aren't Bellevue quit trying to emulate them.

I think that public servants, particularly the front-line police officers, should be given some increased hazardous pay as an incentive to be vaccinated and as compensation for being in direct contact with the public, often in physical altercations. Those who put themselves in danger for us should have danger pay!
