COMMUNITY JUSTICE CENTER PUBLIC ART

Garage Wall art project slated to be installed in early 2024.

In the proposal are presented distinctive panel ideas which will be designed to reflect nature, kindness, community and healing.
The design compositions are different, including cutouts, nice outlines coming out from the straight panels giving rich silhouettes, engraving elements and layering techniques.
Adding color with patination will enrich the environment even more.

SEGMENT 1 POLLINATION

Pollination is an essential part of life

Symbolic elements are included in the design as well, for example: **Butterflies**, which are beautiful and have mystery, symbolism, and meaning and are a metaphor representing spiritual rebirth, transformation, change, hope, and life.
