

January 21, 2026 – REV1

City of Lynwood

**Re: Edmonds School District New Middle School**

This letter with the included light fixture catalog cuts are submitted to show compliance with Lynwood Municipal Code 21.17 and other review comments provided by the City of Lynwood. Please see the following.

**Section 8.40.0540 – Non Residential Lighting**

1. Site lighting is designed to follow the Performance Method of the code.
2. Lighting does not exceed the site limits. The site lumen limit is 2.5 Lumens per SF. Our site is 859,542 SF so our total allowed lumens are 2,148,855 Lumens for this site
3. The input data shows the luminaire locations, mounting heights and aiming on the attached photometric plan.
4. The photometric plan shows zero reflectance around the perimeter of the site up to 33 feet above the tallest luminaire and photometric data is shown.
5. The design complies total lumens on the virtual enclosure are less than 15% of the site total lumen limit or 322,328 lumens and the vertical is less than the maximum illuminance

**General Requirements – 27.17.050**

6. Site lighting has been designed to minimize trespass onto adjacent residential properties
7. Site lighting is cutoff to minimize spillage into the sky
8. Outdoor lighting is controlled by a combination of a photo sensor and a time switch and motion sensor
9. Fixtures and lighting systems will be maintained in good working order and in a manner that serves the original design intent of the system by Edmonds School District
10. The photometric plan is included in this set
  - a. Cut sheets are included with this letter showing lumens, height, and Bug ratings
  - b. The lighting design is to provide soft pleasing warm light with minimal trespass to neighboring properties. All cuts show BUG ratings

**Section 27.17.060**

1. No lighting is within 50 feet of a residential zone

**Section 27.17.070**

1. Project is Lighting Zone LZ-2, School

**Section 27.17.080**

1. This is a non-residential property using the Performance Method for compliance.
2. The site lumen limit is 2.5 Lumens per SF. Our site is 859,542 SF so our total allowed lumens are 2,148,855 Lumens for this site. The attached plan shows lumens in compliance.
3. Calculation shows compliance with B.2.b and B.2.c
4. All fixtures show B Ratings per Table 27.17.05. Fixtures are rated B3, B2, and B0
5. All fixtures are less than U2 Rating per 21.17.06
6. All fixtures show G Ratings per Table 27.17.07. Fixtures are rated G2 and none close to the property line

Lighting photometric calculation results are shown on new sheets E1.02 & E1.03.

**Fire Division**

1. Fire alarm connections for valves on backflow are now indicated.
2. Remote shutdown switch, Knox #4505, is now indicated on plan. Remote switch will shut-off power to all EV chargers.

**External Review – Snohomish PUD**

1. Confirmed receipt of system capacity memo. Design Team, Contractor and Owner to coordinate with Snohomish PUD for new electric service and removal of existing.

Please call if you have any questions or wish revisions.

Sincerely,

*Mike Fitzmaurice*

Mike Fitzmaurice, PE

CATALOG #:	

**FEATURES**

- Sealed IP68 LED light engine
- Bluetooth connectivity for remote control aiming and dimming
- Free Mobile App for Android and iOS
- Easy to install and pair devices
- Advanced thermal management provides long life in excess of 100,000+ hours
- Runs cool to the touch - less than 40°C

Lightvault8 Flat Frame, Stainless Steel, Rock Guard, Half Shield, Eyeball

**CONTROL TECHNOLOGY**

**SPECIFICATIONS**

**HOUSING:**

- Pour Box rough-in housing for installation below grade
- High temperature UV resistant thermal plastic, 3/16" minimum wall, black
- Includes a splice box with molded plastic splice cover and silicone gasket
- Three 1" NPT in bottom for through wiring on LTV81 and LTV82
- Two 1" NPT in bottom for through wiring on LTV83. 107 cu. in. splice area for LTV81
- 52 cu. in. splice area for LTV82. 24 cu. in. splice area for LTV83
- Rough-in housing supplied with a protective aluminum debris shield and includes an orientation label for proper installation alignment. This allows for clean and easy installation in concrete pad or soil. Pour Box can be shipped separately as a quick-ship if requested
- One-piece impregnated cast bronze component module is fully sealed and secured to the face trim from the underside
- A high temperature, anti-siphon, IP68 sealed cable extends from the component module to the splice box inside the housing
- The fully assembled component module is secured to the housing with (4) ¼-20 tamper-resistant and high grade stainless steel fasteners
- One-piece cast bronze lens ring fastens to the component module from the underside and provides a flat surface
- Slip Resistant Lens (SR) and Rebar Cage Anchor (RCA81)
- When installed in concrete, fixture will withstand drive-over by vehicles weighing up to 4,500 lb.

**OPTICS**

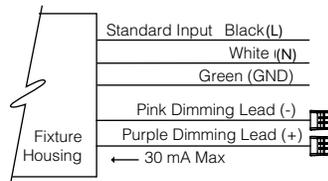

- Spot (SP), Narrow Flood (NF), and Wall Wash (WW) optical modules are adjustable up to 15° utilizing a Bluetooth enabled motor assembly
- Clear 5/16" thick tempered glass lens and silicone gasket is retained securely within the component module

**ELECTRICAL**

- All electronic components are UL and CSA recognized and are mounted directly to the component module for maximum heat dissipation and modularity. Driver is IP67 with -30°C minimum temperature rating
- Product comes standard with a UL Recognized 10kA surge protector

**CONTROLS**

- Standard fixtures dimming range is from 10% to 100% and be compatible with 0-10V, user-defined, control devices

**BLUETOOTH:**

- Integral Bluetooth module used to adjust optics and dim fixture to desired setting when paired with KIM LTV8 Remote App via cellular/tablet device
- Fully qualified Bluetooth 1.1, 1.2, 2.0, 2.1. Bluetooth v2.0+EDR compatible with Android devices running Android Gingerbread API level 9 forward. Bluetooth 4.0 LE compatible with iOS devices - iPhone 4S and later, 5th generation iPod touch, the iPad Mini and the 3rd generation and later of the full size iPad with iOS 5 or later

**RELATED PRODUCTS**

LTV8FF RGBW

LTV8SS

LTV8SS RGBW

**BLUETOOTH (CONTINUED)**

- Bluetooth Apps are available for Apple iOS and Google Android mobile devices and are downloadable via the internet at Apple App Store or Google Play

**CAUTION:**

- Fixtures must be grounded in accordance with national, state and/or local electrical codes. Failure to do so may result in serious personal injury

**CERTIFICATIONS AND LISTINGS**

- Listed to UL1598 and UL8750 25°C ambient operation
- SASO Certified for LTV82/83
- IP68 rated
- IEC 66262 Mechanical Impact Code IK09
- CISPR 15 Compliant, per product standard EN 55015:2013
- RoHS compliant

**WARRANTY**

- 5 year warranty

DATE:	LOCATION:
TYPE:	PROJECT:
CATALOG #:	

**FEATURES**

- 20" size in post top, pole and wall mount
- High performance optics up to 17,000 delivered lumens
- Elegant form factor
- Diffusion lens option
- UL/cUL listed for wet locations, IP66 and 4G/1.5G vibration rated

3000K and warmer CCTs only

**CONTROL TECHNOLOGY**

**SPECIFICATIONS**

**CONSTRUCTION**

- Low copper aluminum alloy die-casting is designed as one-piece with internal cooling fins.
- Solid, cast aluminum wall creates a thermal barrier between the optical and electrical compartments.
- Molded silicone gasket throughout insures the sealing between the two compartments and provides ingress protection.
- Housing is designed with integral LED heat sink utilized for thermal transfer and for securing the location of each LED module.
- All external fasteners are stainless steel.
- One-piece low copper aluminum alloy die-cast lens frame is secured to housing with 6 screws.

**OPTICS**

- LEDs mount to a metal printed circuit board assembly (MCPCB).
- Optical lenses are clear injection molded PMMA acrylic.
- Optional Backlight Control on each LED module to completely control unwanted backlight.

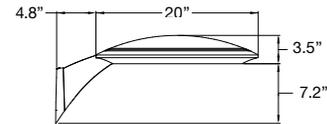

**LENS**

- Standard lens (CLR) IK08
- Clear Polycarbonate Lens (CP) IK10

**INSTALLATION**

- Fixtures must be grounded in accordance with national, state and/or local electrical codes. Failure to do so may result in serious personal injury.

	Weight	EPA
<b>UR20</b>	32 lbs / 14.5 kg	0.372 ft. <sup>2</sup>

**ELECTRICAL**

- Universal voltage, 120 through 277V with a ±10% tolerance. Driver is Underwriters Laboratories listed.
- High voltage configurations, 347/480. Driver has a 0-10V dimming interface for multi-level illumination options. Driver is Underwriters Laboratories listed.
- "Thermal Shield", secondary side, thermistor provides protection for the sustainable life of LED module and electronic components
- Drivers shall have greater than a 0.9 power factor, less than 20% harmonic distortion, and be suitable for operation in -40°C to 40°C ambient environments.
- Luminaire shall be capable of operating at 100% brightness in a 40°C environment. Both driver and optical array have integral thermal protection that will dim the luminaire upon detection of temperatures in excess of 85°C.
- Surge protection: 10,000k in parallel, 20,000k in series
- Wiring: No. 18AWM rated 105°C, wet rating.

**CONTROLS**

**7PR**

- Fully gasketed and wired 7-pin receptacle option. Easy access location above the electrical compartment. 7-pin construction allows for a user-defined interface and provides a controlled definition of operational performance. ANSI twist-lock control module by-others.

Standard customer operation modes:

- Traditional on/off photoelectric control.
- 5-pin wireless photoelectric control for added dimming feature.
- 7-pin wireless photoelectric control for dimming and additional I/O connections for customer use.

<sup>1</sup>Clear Polycarbonate Lens (CP) IK10, Standard lens (CLR) IK08, Consult factory for details

- One-piece low copper aluminum alloy die-cast lens frame is secured to housing with 6 screws.

**OPTICS**

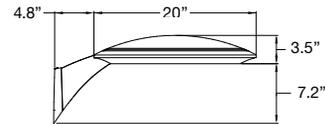

- LEDs mount to a metal printed circuit board assembly (MCPCB).
- Optical lenses are clear injection molded PMMA acrylic.
- Optional Backlight Control on each LED module to completely control unwanted backlight.

**LENS**

- Standard lens (CLR) IK08
- Clear Polycarbonate Lens (CP) IK10

**INSTALLATION**

- Fixtures must be grounded in accordance with national, state and/or local electrical codes. Failure to do so may result in serious personal injury.

	Weight	EPA
<b>UR20</b>	32 lbs / 14.5 kg	0.372 ft. <sup>2</sup>

**ELECTRICAL**

- Universal voltage, 120 through 277V with a ±10% tolerance. Driver is Underwriters Laboratories listed.
- High voltage configurations, 347/480. Driver has a 0-10V dimming interface for multi-level illumination options. Driver is Underwriters Laboratories listed.
- "Thermal Shield", secondary side, thermistor provides protection for the sustainable life of LED module and electronic components
- Drivers shall have greater than a 0.9 power factor, less than 20% harmonic distortion, and be suitable for operation in -40°C to 40°C ambient environments.
- Luminaire shall be capable of operating at 100% brightness in a 40°C environment. Both driver and optical array have integral thermal protection that will dim the luminaire upon detection of temperatures in excess of 85°C.
- Surge protection: 10,000k in parallel, 20,000k in series
- Wiring: No. 18AWM rated 105°C, wet rating.

**CONTROLS**

**7PR**

- Fully gasketed and wired 7-pin receptacle option. Easy access location above the electrical compartment. 7-pin construction allows for a user-defined interface and provides a controlled definition of operational performance. ANSI twist-lock control module by-others.

Standard customer operation modes:

- Traditional on/off photoelectric control.
- 5-pin wireless photoelectric control for added dimming feature.
- 7-pin wireless photoelectric control for dimming and additional I/O connections for customer use.

<sup>1</sup>Clear Polycarbonate Lens (CP) IK10, Standard lens (CLR) IK08, Consult factory for details

**FEATURES**

- 20" size in single/dual arm post top, pole and wall mount
- High performance optics up to 16,874 delivered lumens
- Elegant form factor
- Diffusion lens option
- UL/cUL listed for wet locations, IP66 and 4G/1.5G vibration rated

Ouro™

3000K and warmer CCTs only

**CONTROL TECHNOLOGY**

**SPECIFICATIONS**

**CONSTRUCTION**

- Low copper aluminum alloy die-casting is designed as one-piece.
- Molded silicone gasket throughout insures the sealing between the two compartments and provides ingress protection.
- All external fasteners are stainless steel.
- Cover is secured to Lens frame by the latch and hinge.

**OPTICS**

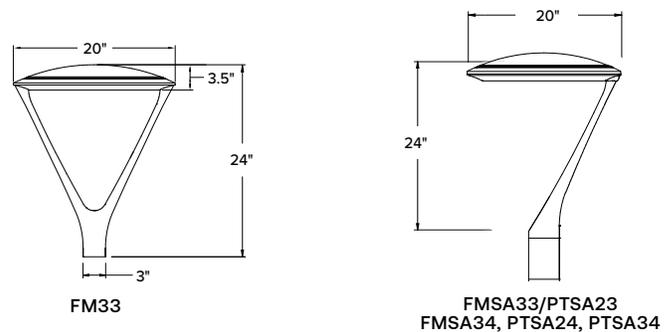

- LEDs mount to a metal printed circuit board assembly (MCPCB).
- Optical lenses are clear injection molded PMMA acrylic.
- Optional Backlight Control on each LED module to completely control unwanted backlight.
- Optional fixture finish optical surfaces will not exceed BUG ratings of the standard white finish.

**LENS**

- Standard lens (CLR) IK08
- Clear Polycarbonate Lens (CP) IK10

**INSTALLATION**

- Fixtures must be grounded in accordance with national, state and/or local electrical codes. Failure to do so may result in serious personal injury.

	Weight	EPA
<b>UR20</b>	35 lbs / 15.8 kg	0.512 ft. <sup>2</sup>

**ELECTRICAL**

- Universal voltage, 120 through 277V with a ±10% tolerance. Driver is Underwriters Laboratories listed.
- High voltage configurations, 347/480. Driver has a 0-10V dimming interface for multi-level illumination options. Driver is Underwriters Laboratories listed.
- "Thermal Shield", secondary side, thermistor provides protection for the sustainable life of LED module and electronic components
- Drivers shall have greater than a 0.9 power factor, less than 20% harmonic distortion, and be suitable for operation in -40°C to 40°C ambient environments.
- Luminaire shall be capable of operating at 100% brightness in a 40°C environment. Both driver and optical array have integral thermal protection that will dim the luminaire upon detection of temperatures in excess of 85°C.
- Surge protection: 10,000k in parallel, 20,000k in series
- Wiring: No. 18AWM rated 105°C, wet rating.

**CONTROLS**

**7PR**

- Fully gasketed and wired 7-pin receptacle option. Easy access location above the electrical compartment. 7-pin construction allows for a user-defined interface and provides a controlled definition of operational performance. ANSI twist-lock control module by-others.

Standard customer operation modes:

- Traditional on/off photoelectric control.
- 5-pin wireless photoelectric control for added dimming feature.
- 7-pin wireless photoelectric control for dimming and additional I/O connections for customer use.

- ① Comfort optic series.
- ② Corrosion resistant diecast aluminum housing.
- ③ Indirect LED lighting on highly reflective dome for visual comfort.
- ④ Clear tempered glass.
- ⑤ All stainless steel hardware.

CT100

## MATERIALS

Clermont is made of aluminum diecast offering exceptional precision and durability. The main housing is sealed with durable gasket. LED boards are hidden between coated polymer that diffuses and reflects the light at 96%. It is UV stabilized and antistatic, which does not attract dust. The driver is preinstalled inside the main housing, sealed with gasket, and secured with four captive screws which makes it easy for maintenance.

## ELECTRICAL DRIVER

Standard driver is 0-10V dimming-ready (dims to 10%) with: 120-277 multi-volt compatibility (50-60Hz), operating temperature range of -40°C to +55°C -40°F to +131°F, output over voltage protection, output over current protection and output short circuit protection with auto-recovery. Optional 347/480V available.

## LED LIGHT ENGINE

Offered in 2700K, 3000K, 3500K & 4000K / 80CRI. 70% LED lumen maintenance at 60,000 hours (L70/B50) based on IESNA LM-80-08 LED extrapolated life, calculated per IESNA TM-21-21.

## FINISH

Five-stage preparation process includes preheating of cast aluminum parts for air extraction. Polyester powder coating is applied through an electrostatic process, and oven cured for long term finish.

## CERTIFICATION

UL Certified to Canadian and U.S. safety standards. Certified for use in wet locations. Rated IP65/IK9. Photometric testing performed by an independent laboratory in accordance with IES LM-79-08 standards at 25°C. Actual performance may differ as a result of end-user environment and application.

## WARRANTY

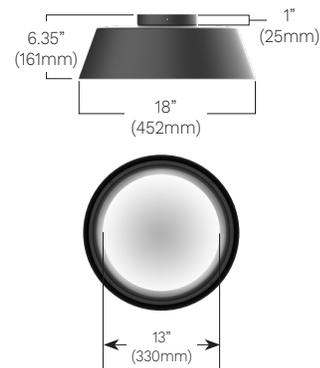

5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: <https://www.acuitybrands.com/support/warranty/terms-and-conditions>

## MOUNTING

The mounting plate is designed to fit on a 4" (102mm) octagonal electrical box using 3.5" (89mm) C/C mounting holes.

## MEASUREMENTS

Maximum weight: 27 lbs (12 kg)

NOTES

- \*- Denotes a required field
- 1- Available only with WDIM. Not available with 347V, 480V, HVOLT or EM7.
- 2- Available only with TUWH. Not available with 347V, 480V, HVOLT or EM7.
- 3- For IDA certification compliance, luminaire must be ordered with 3000K or warmer.
- 4- Remote mount 50ft - 12" (305mm) square enclosure with access cover. The remote enclosure must be interior. Cable between fixture and remote box is provided by others.
- 5- Integral to luminaire housing. Integral is not suitable for temperatures under 0°C (32°F). Not available with 347V, 480V, HVOLT or RD10.
- 6- Remote mount 50ft - 12" (305mm) square enclosure with access cover. Includes driver. The remote enclosure must be interior. Cable between fixture and remote box is provided by others. Not available with 347V, 480V, HVOLT or RD10.
- 7- Contact factory to coordinate custom matching color.
- 8- Specify RAL number.
- 9- Marine grade paint for harsh, coastal environment and exposure to salt water. Additional delay required.
- 10- Available only in WHT and BKT.

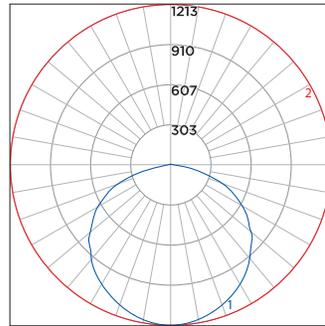

## TYPICAL PHOTOMETRY SUMMARY

LUMEN CONVERSION FACTOR (LCF)		
CCT	CRI	LCF
2700K	80	0.91
3000K	80	0.94
3500K	80	0.98
4000K	80	1.00

## TUNABLE WHITE

User can modify the correlated color temperature (CCT) and intensity of the source using two slider controls or an intelligent lighting management system.

0-10V Input 1 CCT control: 2700K to 5000K (CCT scale), 0 to 10V

0-10V Input 2 Intensity control: 1% to 100% (Intensity scale), 0 to 10V

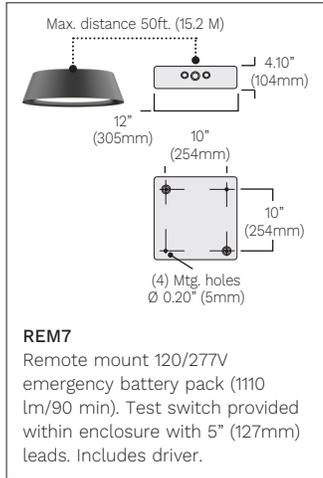

## WARM DIMMING

Warm dimming (0-10V) lowers the LED temperature (CCT) as it is dimmed. The lower the brightness, the warmer the CCT.

0-10V Input 1 CCT & Intensity control: 2700K to 4000K (Intensity & CCT scale), 0 to 10V

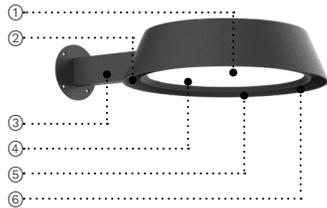

All Photometry shown use the 80CRI 4000K LEDs.  
 Please visit our web site [www.luminis.com](http://www.luminis.com) for complete I.E.S. file.
