Lynnwood’s Community Vision articulates core values and norms that include fiscal sustainability, accountability, economic vibrancy, and transparency. The safekeeping, proper use and management of the City resources are essential to responsible and responsive public service and governance. Standards and best practices for the management of City resources are set forth by entities which include the Internal Revenue Service, State Legislature, State Auditor’s Office (SAO), Department of Revenue, Government Financial Officers’ Association (GFOA), Government Accounting Standards Board (GASB), and the Lynnwood Municipal Code (LMC). Lynnwood’s Financial Policies (Policies) support and augment those provisions, so that all fiscal decisions and actions adhere to and implement each of these objectives.

- c. Recreation and parks use fees shall be set by the Director of Parks, Recreation and Cultural Arts within ranges established by ordinance.

Capital expenditures may be funded from one-time revenues, but the operating budget expenditure impacts of capital expenditures shall be reviewed for compliance with this policy provision.

 - ii. Prior to increasing taxes and/or fees to achieve a balanced budget, the City should evaluate opportunities to reduce one-time and/or ongoing expenses.
 - iii. Rather than instituting "across the board" reductions, specific performance measurement criteria should be utilized to reduce/discontinue certain levels of service, or delay/discontinue certain projects.
- C. Periodic financial reports prepared by the Finance Department shall be utilized to monitor forecasted, budgeted, and actual revenues and expenditures.

- D. In instances when combined, actual sales and use tax revenue for the previous two quarters is less than the revenue received during the same period of the previous year, the Mayor shall put forth to the Finance Committee a proposed budget amendment that responds to the under-performance of revenues.
