Compile & Review Full Draft
Revision Rounds (2-3)
Align Capital Facilities &
Capital Improvements

4. ADOPT
City Council Process
Strategic Planning
Budgeting for Outcomes
Set Up for Implementation
Budgeting & Funding
Pursuits

WHAT DOES LYNNWOOD'S FUTURE HOLD?

The City is updating its Comprehensive Plan. It describes Lynnwood's long-term vision for growth, infrastructure, and services over the next 20 years. The current Comprehensive Plan was adopted in 2015. Given the changes happening in Lynnwood, the updated Comprehensive Plan will consider a wide variety of important community values and priorities.

As part of our work, we are considering how to:

» Strengthen and preserve a strong sense of community.

» Continue to plan for transit and opportunities presented by light rail and bus rapid transit connecting King and Snohomish Counties.

» Embed race and social equity into the planning process and plan content.

» Improve quality of life for residents.

» Consider community resilience as a core value in responding to disruptive regional, national, and global events.

This project takes a city-wide approach to planning for the future, and we will be engaging with everyone who lives, works, or visits Lynnwood to understand what people value about our city and where our city has challenges. We also want to know what is most important to our community so we can set goals and policies to achieve our priorities! We look forward to hearing from you throughout the project.
